

California Ambulance Association Webinar

Tuesday, March 12th, 2019

10:00am – 11:00am

Speaker(s): Rick Binder – Director of Sales and Marketing – Binder Lift, LLC

Description: Preventing Lift Injuries

It's a well-known fact that EMS has a far higher lifting related injury rate than any other industry. This webcast will answer where and why these injuries are happening with data and analytics that you've likely never seen before. Things to learn: 1) Data from CDC and NIOSH that answer where and why the majority of injuries happen in EMS. 2) Training and culture gaps and how to overcome them; 3) An analysis of all styles of lifting equipment on the market.

Cost (check one): free for CAA Members \$50.00 for Non Members
